

STATE OF ARIZONA

OFFICE OF THE GOVERNOR

1700 WEST WASHINGTON STREET, PHOENIX, AZ 85007

JANET NAPOLITANO
GOVERNOR

MAIN PHONE: 602-542-4331
FACSIMILE: 602-542-7601

June 1, 2006

Dear Policy Makers, Advocates and Community Members:

I am pleased to present the 2005 State Agency Coordination Team Report (SACT). The 2005 report outlines the work that has been done by the state agencies that fund services for victims of domestic and sexual violence. By working together, SACT team members are able to coordinate services, share resources and more effectively serve victims of sexual and domestic violence throughout Arizona.

During the past two years, SACT members have worked on a number of issues that impact victims of domestic and sexual violence in Arizona. The 2005 SACT report outlines a number of accomplishments including the creation and distribution of a Domestic Violence and Sexual Assault Needs Assessment that was distributed to the 188 agencies that receive SACT member agency funding. The findings of this Assessment are included in this report; not surprisingly the findings reflect the need for both more services and more funding for these services. In addition, SACT member agencies worked collaboratively on a number of projects focused on prevention, public awareness, improved and expanded victim services, and enhanced data collection and analysis.

I encourage you to take the time to review both the accomplishments and goals of the SACT member agencies. The efforts of the SACT members reflect my administration's commitment to improving the coordination and efficiency of state agencies. I encourage you to read this report and familiarize yourself with the SACT agencies and their activities. Together we can maximize our resources as we work to prevent domestic and sexual violence in Arizona.

Yours very truly,

Janet Napolitano
Governor

I. SACT OVERVIEW

The Mission of the State Agencies Coordination Team (SACT) is “to collaboratively assess needs, maximize state and federal resources, support intervention and prevention activities, and improve quality services for domestic violence and sexual assault victims while positively influencing family violence policies and practices.”

SACT operates under these Guiding Principles:

- Include those state agencies that deal with domestic violence and sexual assault
- Identify the most effective ways to address challenges experienced by entities that receive funding from SACT agencies
- Partner in achieving increased administrative efficiency
- Strive to improve services by creating a seamless system for continuity of care
- Develop priorities for new funding and for addressing directional change
- Eliminate duplication of services
- Demonstrate commitment to fulfilling the mission of SACT

SACT is composed of nine agencies that meet monthly to address issues of common concern and to look for ways to collectively be more effective. These efforts have included information sharing, joint program funding and training, developing common performance measures, and administering a statewide needs assessment.

SACT member agencies include:

- Arizona Criminal Justice Commission (ACJC)
- Arizona Department of Housing (ADOH)
- Arizona Supreme Court, Administrative Office of the Courts (AOC)
- Arizona Department of Corrections (ADC)
- Arizona Department of Economic Security (ADES)
- Arizona Department of Health Services (ADHS)
- Arizona Department of Public Safety (ADPS)
- Governor's Office for Children, Youth and Families (GOCYF)
- GOCYF Division for Women (DFW)
- Office of the Arizona Attorney General (OAAG)

II. ACCOMPLISHMENTS

FY 2004 & FY 2005

In 2004-2005 SACT focused on two of the Strategic Initiatives that were identified in the 2004 SACT Report. Because of its collective expertise and resources SACT was able to make considerable progress moving these initiatives forward as summarized below.

Strategic Initiative: *To identify, collect and analyze existing data relating to domestic violence and sexual assault and conduct an inventory of services currently provided for the purpose of developing a statewide needs assessment and determining gaps in services.*

In early 2004 SACT began discussions regarding the development of a Statewide Domestic Violence and Sexual Assault Needs Assessment. Over the next 18 months SACT created and administered a survey to all SACT funded agencies. While individual SACT member agencies have conducted needs assessments in the past, this was the first time SACT members worked together to determine the need for and availability of domestic violence and sexual assault services in Arizona. This survey, administered in 2005, gathered information regarding victim demographics, victim needs, service availability, barriers to service, prevention, and community collaborations. Fifty-four percent of the 188 agencies receiving SACT funding who were sent a survey responded.

Respondents were asked about the proportion of victims they encountered during the previous year who needed various kinds of services and the proportion of victims who were able to access those services. Most agencies reported that the victims they saw needed: crisis counseling (91%), victim assistance (90%), emergency shelter (90%), legal assistance (87%), transportation (86%), housing (84%), mental health care (82%), short-term crisis (82%), children's services (81%), medical care (79%), public benefits (78%), childcare (76%), coordinated case management (75%), therapy (74%), language interpreter (73%), or substance abuse treatment (68%)¹.

¹ Percent in parenthesis represents the percent of agencies reporting that either all, most, or some of their clients expressed a need for service.

Clients were often not able to access services to meet their needs. Less than 1 in 5 agencies said that either all or most of their clients were able to access needed services for substance abuse treatment. Approximately 1 in 4 said that all or most of their clients could access needed housing, therapy, and childcare, and 1 in 3 could access services for all or most of their needs for transportation, legal assistance, and children's services. Needs were more likely to be met for services related to mental health, emergency shelter, short-term crisis, public benefits, medical care, coordinated case management, language interpreters, victim assistance, and crisis counseling. Crisis counseling, the service most likely to be available, was only reported as an available service by 70% of agencies.

Lack of service availability and inadequate funding were the most frequent barriers mentioned to accessing services, followed by inadequate staffing and cultural barriers. Service providers reported that increased communication and coordination among involved professionals or agencies were needed to establish or enhance community response to victims' needs.

Strategic Initiative: *To support recommendations generated by the Governor's Commission to Prevent Violence Against Women.*

In June 2004 the Governor's Commission published the ***State Plan on Domestic and Sexual Violence: A Guide for Safety and Justice in Arizona*** that contains 56 recommendations. As part of its charge from the Commission, SACT developed an inventory identifying activities relating to 11 of the recommendations. This inventory was integrated into a comprehensive State Plan Update that was reviewed by the Commission at its September 2005 meeting.

One of the State Plan recommendations was specifically directed at SACT. This recommendation (4.8) under the category of Victims Services/Crisis Response - Systems Change, calls for efforts to "Strengthen the coordination of activities and priorities of the state agencies with regards to domestic and sexual violence through the State Agencies Coordinating Team (SACT)." Throughout the last two years SACT members have engaged in numerous collaborations that have emphasized the development and implementation of public policy to prevent domestic and sexual violence as well as provide services to those who have been victimized. These collaborations have included:

Public Awareness

Development of a statewide response to Domestic Violence Awareness Month that included:

- Preparation of a Governor's Proclamation acknowledging Domestic Violence Awareness Month.
- Production of over 5000 purple ribbons by the Department of Corrections Women Inmates at Perryville Prison. These ribbons were distributed to Arizona State Agency employees.
- Review and revision of SACT member agency policies on violence in the workplace.
- Implementation of a pledge card for state employees to select ways to respond to domestic violence.
- Individual SACT member agency initiatives including brown bag lunch presentations, information booths and kiosks.

Prevention

- Participation in the update of the ADHS Injury Prevention Plan for 2006-2010, which contains a chapter dedicated to the prevention of relationship violence.
- Support of an initiative developed by the Office of the Arizona Attorney General to protect the confidentiality of addresses of domestic violence victims. This program is modeled after programs implemented in 16 other states.

-
- Support of legislation that created Domestic Violence Fatality Review Teams (DVFRT) and the National Fatality Review Team Conference held in Phoenix in August 2005.
 - Support of the Cut-It-Out Campaign, a collaboration between the Office of the Arizona Attorney General, the Arizona Board of Cosmetology, and the Arizona Coalition Against Domestic Violence which educates salon professionals about how to provide support and domestic violence referral information to their clients as needed.

Strengthened Collaborations

- Addition of the Arizona Department of Corrections (ADC) to SACT membership. ADC provides funds to ACJC for victims' assistance and restorative justice. ADC is involved in increasing rehabilitative services and community planning for female inmates being released to transitional housing, many who are also victims of domestic violence.
- Increased ties to the Arizona Coalition Against Domestic Violence (AZCADV) and Arizona Sexual Assault Network (AZSAN) by:
 - Sharing SACT agendas and meeting notes
 - Inviting AZCADV and AZSAN to attend special presentations
 - Encouraging AZCADV and AZSAN to bring issues of concern to SACT
- Hosting the first annual joint meeting with SACT, AZCADV and AZSAN to explore collaboration strategies and opportunities.

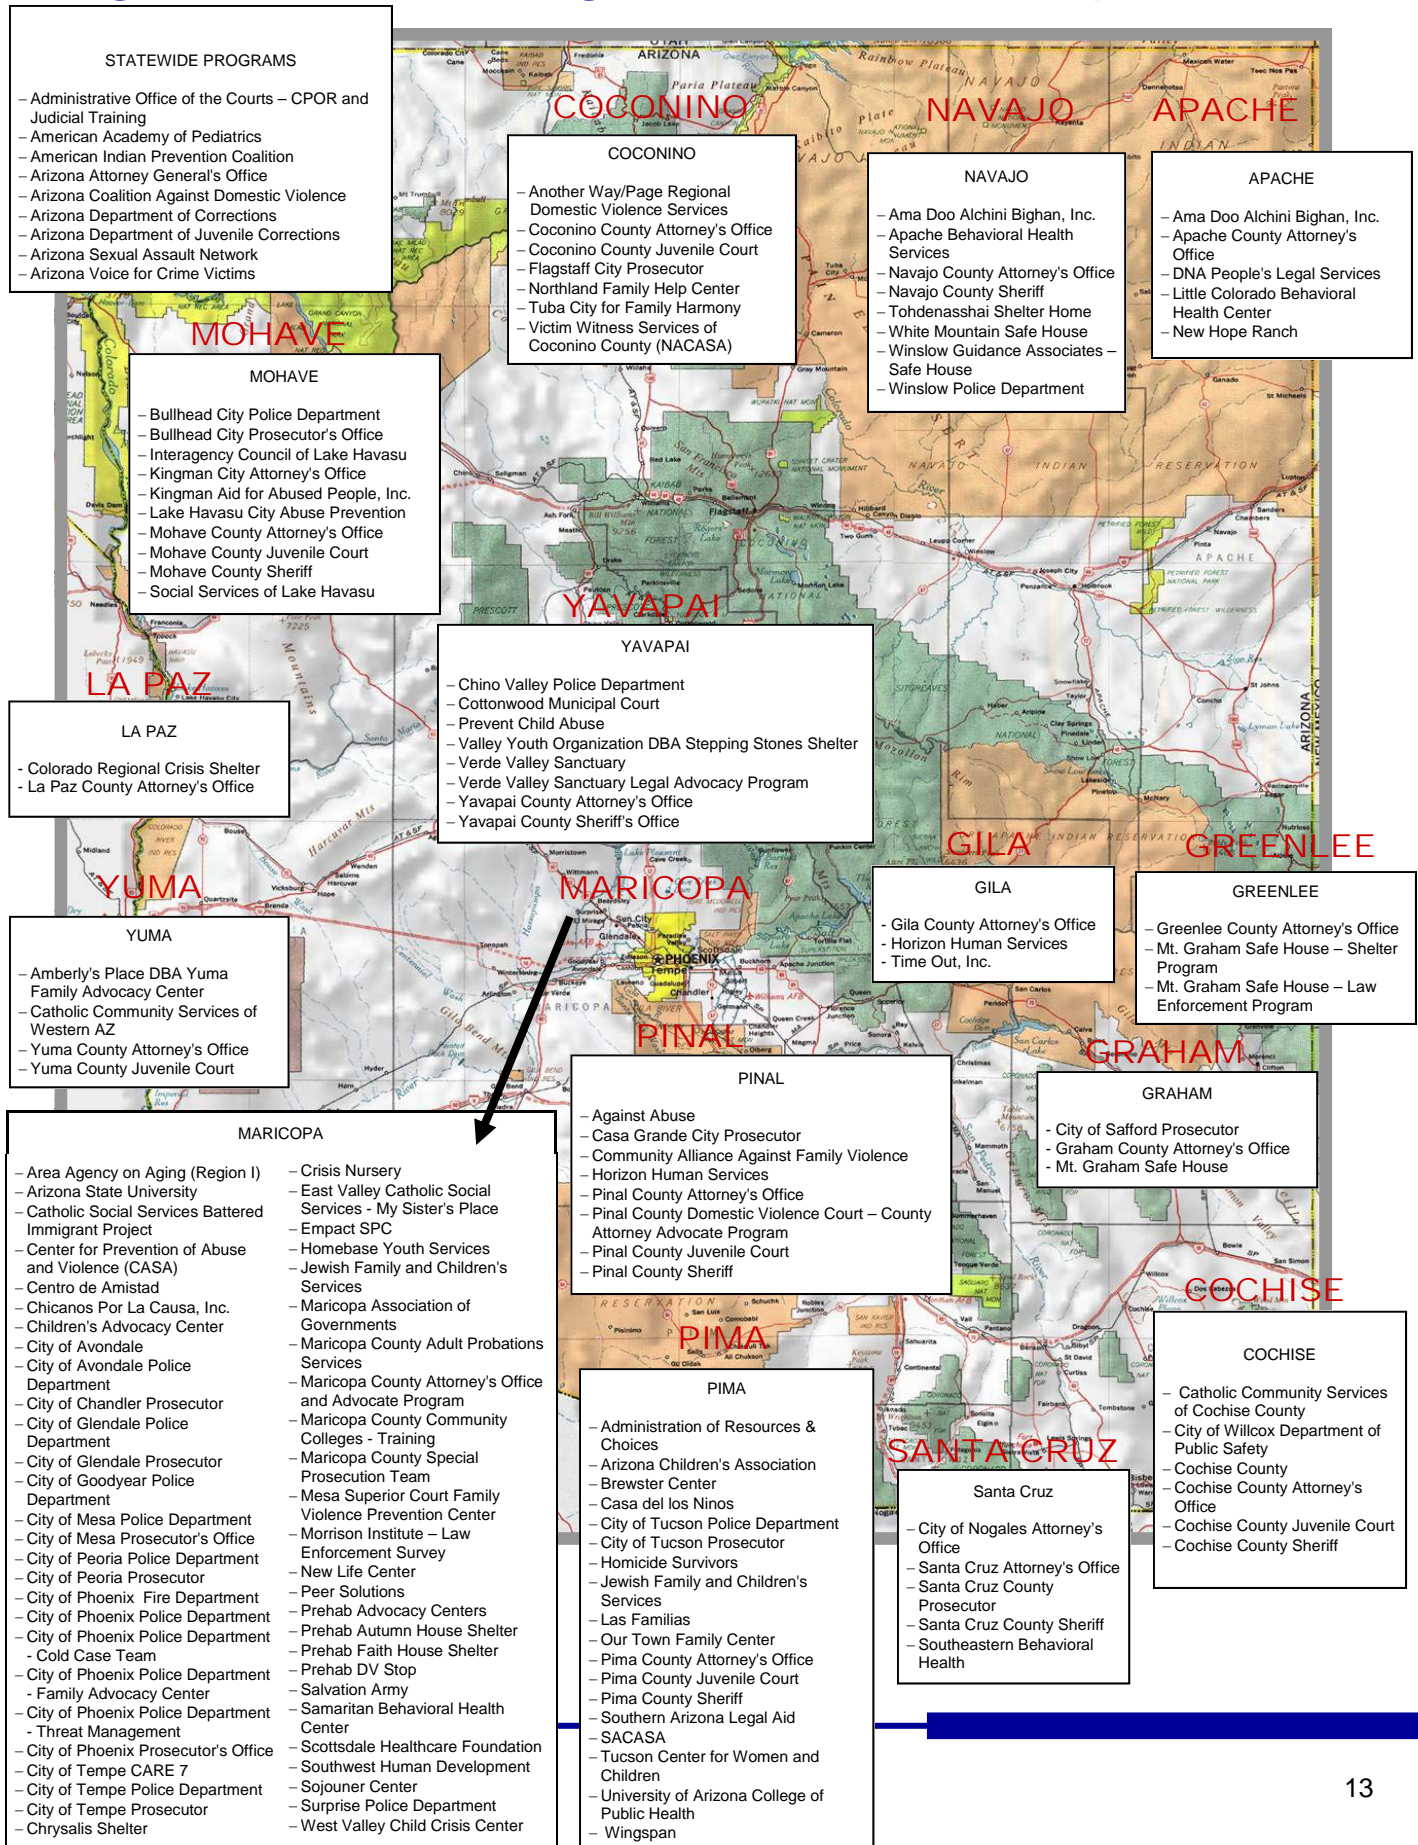

Expanded and Improved Services

- Supported legislation that increased funding for domestic violence shelters across Arizona by \$1,500,000.
- Applied "lessons learned" from successfully providing crisis wraparound services to Hurricane Katrina victims to domestic violence and sexual assault victims.
- Established a uniform way to measure services offered by agencies as well as looking at outcomes effectiveness of agency services.
- Continued to serve across agencies on grant review teams to fund domestic violence and sexual assault services.

Enhanced Data Collection and Analysis

- Tracked the implementation of the Court Protective Order Registry (CPOR) and the Law Enforcement Protective Registry (LPOR) Project, which was originally funded by ADC, DPS and DFW, and utilized the data collected to clarify issues surrounding Court Orders of Protection.
- Examined the barriers to ensuring that Court Orders of Protection are served particularly across jurisdictions.
- Supported ADHS implementation of new modules on intimate partner violence and sexual violence in the statewide, random telephone Behavior Risk Factor Surveillance System Survey.

STRATEGIC INITIATIVES FOR 2006 AND 2007

In looking to the future, SACT members have identified the following strategic initiatives that they will collectively address during the next two years.

- Explore ways to ensure domestic violence victims' health and safety during their stays at domestic violence shelters.
- Hold a Sexual Assault Conference in 2006 and identify prevention and intervention strategies that can be used by agencies providing services to victims.
- Expand awareness of Domestic Violence and Sexual Assault statewide.
- Further utilize the Statewide Needs Assessment to develop strategies relating to Domestic Violence and Sexual Assault.
- Work with the Arizona Coalition Against Domestic Violence and the Arizona Sexual Assault Network to improve responses to Domestic Violence and Sexual Assault, e.g. fatality review teams and Court Orders of Protection.
- Track the development and growth of Domestic Violence Fatality Review Teams in Arizona.
- Explore the development of a task force to address service issues related to orders of protection throughout Arizona.

APPENDIX:

STATEWIDE SUMMARY OF REPORTED DOMESTIC VIOLENCE STATISTICS: ARIZONA LAW ENFORCEMENT RESPONSE 2003 AND 2004

Since 1994 Arizona has been collecting domestic violence data from local and tribal law enforcement agencies that voluntarily submit this information each quarter to the Governor's Division for Women (DFW). In 2004 the survey was streamlined to reduce the number of requested data elements from 34 to 10. In addition, the survey instrument was reformatted to better ensure complete and accurate data.

The table below shows the data that were reported for calendar years 2003 and 2004 for the reduced number of data elements. In 2003, 95 of the 104 local law enforcement agencies and 8 tribal law enforcement agencies provided some or all of the requested data. In 2004, 82 of the 104 local law enforcement agencies and 8 tribal law enforcement agencies provided some or all of the requested data. The decline from 2003 to 2004 in the number of agencies reporting is attributable to challenges in implementing the revised survey instrument.

The Governor's Division for Women and the State Agency Coordination Team remains committed to the collection of accurate, relevant law enforcement statistics. Our goal is to increase law enforcement agency participation in the survey. This will be accomplished by tasking one STOP Grant staff person with the responsibility for distributing, collecting and analyzing incoming data. Increased outreach efforts will also be undertaken through personal contact with law enforcement agencies, quarterly email reminders and ongoing troubleshooting of data collections. Valid data will result in a clearer picture of the domestic violence in Arizona. The collection of accurate domestic violence data, as outlined in the Governor's State Plan on Domestic and Sexual Violence, is a crucial element of acknowledging and intervening in the multi-dimensional issue of domestic violence throughout Arizona.

Arizona's Uniform Law Enforcement Domestic Violence Statistical Report

| Data Elements | 2003 Totals | 2004 Totals |

| 1. The number of police reports generated by violations of statutes ARS 13-3601 (Domestic Violence) and ARS 13-3602 (Orders of Protection) | 58,261 | 58,879 |
| 2. Total number of cases involving arrest(s) at the scene | 19,858 | 18,468 |
| a. Total number of male only arrests | 14,278 | 13,419 |
| b. Total number of female only arrests | 4,263 | 4,004 |
| c. Total number of dual arrests (male and female) | 1,317 | 1,045 |
| 3. Total number of cases where weapons were seized pursuant to ARS 13-3606 | 582 | 516 |
| 4. Total number of cases involving arrests that were submitted to prosecutorial agency requesting criminal complaint <i>(In 2003 this data element included all cases not just those involving arrests)</i> | 11,711 | 8,423 |
| 5. Total number of police reports where alcohol usage was noted | 8,062 | 6,661 |
| 6. Total number of police reports where drug usage other than alcohol was noted | 2,393 | 2,047 |
| 7. Total number of police reports where minors were present at the scene | 13,953 | 11,496 |

On behalf of Governor Napolitano, the Governor's Office for Children Youth and Families, Division for Women would like to thank the following law enforcement agencies that submitted statistics for calendar years 2003 and 2004. The Governor's Office remains committed to improving the collection and processing of domestic violence statistics.
